

## Elvan DOK

Elvan Dok was born at a small town of Adiyaman, 1973, into a large family. Her interest in arts, especially painting, was cherished during her childhood when she spent quite a good time in the farm with family. She was impressed with the power of light and millions of colors that nature serves during those summers at the farm. Her journey in painting started with charcoal and pastel drawing, and did not take so long for her to meet the playful pleasure of oil painting on canvas. Since then, Elvan uses oil painting as her core material - also, she jazzes her paintings up with other painting materials and mediums. Her joining to Seba Art Gallery helped her to further maturate in oil painting and define her own style in painting.
